PROFESSIONAL SUMMARY

UX/Product Designer with 2 years of experience designing 0→1 enterprise SaaS products from user research to delivery. Experienced in discovery, workflow design, information architecture, interaction design, and translating complex business problems into intuitive, data-driven experiences.

EDUCATION

Indian Institute of Technology (IIT) Ropar Nov 2020 – July 2024
Metallurgical and Materials Engineering

SKILLS

- UX:** User Research, Stakeholder Interviews, Journey Mapping, User Flows, Information Architecture, Interaction Design, Wireframing, Prototyping, Usability Testing, Design Systems
- Product:** Product Discovery, User Research, Stakeholder Management, PRDs, Feature Prioritization (RICE), Workflow Design, Product Strategy, Product Metrics, Agile Methodologies
- Tools:** Figma, FigJam, Adobe Photoshop, Illustrator
- Development:** React.js, JavaScript, REST APIs, SQL (Basic)

WORK EXPERIENCE

OctoDo Solutions Pvt. Ltd. May 2024 – March 2026
Product Engineer (UX & Product Systems (Intern → Full-time))

- Led stakeholder interviews and discovery workshops, translating workflow challenges into actionable product requirements.
- Designed end-to-end user journeys, task flows, information architecture, and interaction models for complex enterprise workflows.
- Created wireframes, high-fidelity interfaces, reusable design systems, and dashboard experiences for data-heavy SaaS products.
- Validated and iterated designs through stakeholder feedback while leading UX design from discovery to production across multiple enterprise products.

KloudStac June 2023 – Aug 2023
Cloud Developer Intern (Remote) Certificate

- Deployed a generative AI chatbot on Azure using OpenAI and Cognitive Search for document-based query resolution
- Built automated document extraction pipelines using Azure Form Recognizer, reducing manual processing effort

PROJECTS

IntelliQ – Enterprise Data Analytics Platform Case Study | Design | View Tool
Role: Product Design • UX Research • Interaction Design

- Conducted stakeholder meetings to identify workflow bottlenecks in spreadsheet-driven enterprise operations.
- Designed journey maps, information architecture, Smart Sheets, role-based workflows, and configurable dashboard experiences.
- Created wireframes, interactive prototypes, and reusable design patterns for complex enterprise data management.
- Iterated solutions through stakeholder feedback, improving usability, adoption, and operational efficiency.
- Impact:** Adopted by **100+ users across 4 organizations**, replacing spreadsheet workflows with an intuitive enterprise platform.

EcoIndex – Event Sustainability & Carbon Tracking Platform Case Study | Design | View Tool
Role: Product Design • UX Research • Mobile & Web Design

- Conducted user and domain research to understand sustainability reporting workflows across large-scale events.
- Designed user journeys, information architecture, and interaction flows for Scope 1, 2, and 3 emissions tracking.
- Created responsive mobile and web experiences with interactive dashboards, prototypes, and intuitive reporting workflows.
- Impact:** Processed **1.08M+ kg CO₂** across **20+ events**, enabling data-driven sustainability decisions.

Enterprise Website Design System Designs
Role: Product & Visual Designer

- Designed responsive marketing websites, reusable UI components, and visual systems for Clean Carbon, EnTech, and Agrasen, ensuring consistency across user journeys and brand experiences.

LEADERSHIP & ACHIEVEMENTS

- Secured **99.56 percentile** in JEE Mains (Top 1% in JEE Advanced).
- Graphic Design Lead, Zeitgeist (Cultural Fest) & Aarohan (Sports Fest), IIT Ropar (2023).
- Mentor & Representative, Vibgyor Fine Arts Club, IIT Ropar (2021–2023).
